AGRISEA & WESCO SEEDS
PASTURE GUIDE

20 21

WHY YOU SHOULD INCLUDE DIVERSE SPECIES INTO YOUR PASTURE SYSTEMS

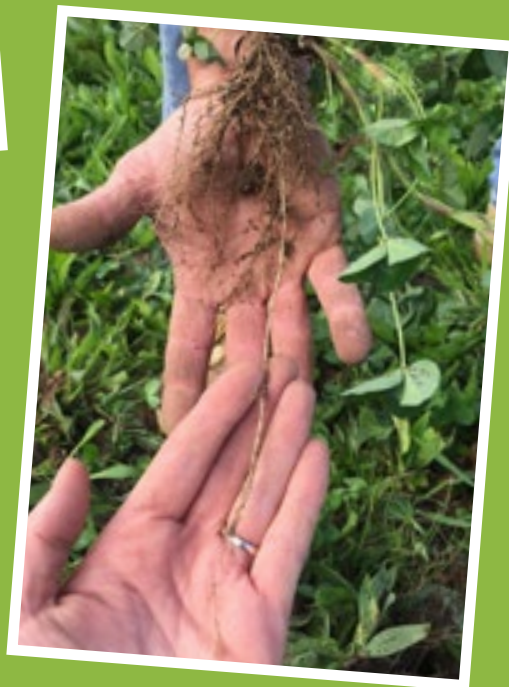

Better ground coverage collects more energy that feeds sugars to the roots and microbes to greater depths. Top soil growth is developed deeper.

Different plants use different nutrients and attract different types of biology to promote better nutrient cycling.

Deeper diverse roots attract more beneficial biology that improves soil aeration and water retention.

A wider range of nutrients (proteins, carbohydrates, fats, fiber, vitamins, and minerals) are presented to the grazing animals that help with their general wellbeing.

Agrisea Mix

This Mix Contains

• Matua Prairie Grass	12%
• Saxon Diploid Perennial	13%
• Tri-Blend White Clover	9%
• Tri-Blend Red Clover	9%
• Hillary Fescue	8%
• Cocksfoot	8%
• Matrix	7%
• Persian Clover	6.5%
• Sub Clover	6.5%
• Rocket Italian Ryegrass	4%
• Chicory	4%
• Plantain	4%
• Timothy	3%
• Medics	3%
• Phalaris	3%

	500KG +	100-500KG	0- 100KG
AGRISEA TREATED	\$12.95KG	\$13.95KG	\$14.95KG

This mix is great for a wide range of farming types such as sheep farming, beef farming or dairy farming.

- Sowing Rate: 25-30kg per hectare.
- Sowing Rate: Existing Pasture 15-20kg per hectare.
- Planting Depth: Ideal - 10mm, Max - 15mm

Agrisea Dryland Dairy Mix

This Mix Contains

• Saxon Perennial Ryegrass	13%
• Tri-Blend White Clover	10%
• Tri-Blend Red Clover	10%
• Cocksfoot	10%
• Tall Fescue	10%
• Matrix	13%
• Persian Clover	6%
• Prairie Grass	5%
• Chicory	4%
• Plantain	4%
• Rocket	4%
• Medics	3%
• Phalaris	3%
• Timothy	3%
• Sub Clover	2%

	500KG +	100-500KG	0- 100KG
AGRISEA TREATED	\$13.95KG	\$14.95KG	\$15.95KG

This mix is designed for dryland dairy farmers. The tolerance to summer dry comes from the added deep rooted species.

- Sowing Rate: 25-30kg per hectare.
- Sowing Rate: Existing Pasture 15-20kg per hectare.
- Planting Depth: Ideal - 10mm, Max - 15mm.

Agrisea Irrigated Dairy Mix

This Mix Contains

• Saxon Perennial Ryegrass	13%
• Tri-Blend White Clover	11%
• Tri-Blend Red Clover	11%
• Cocksfoot	10%
• Tall Fescue	10%
• Matrix	10%
• Persian Clover	7.5%
• Prairie Grass	5%
• Medics	4.5%
• Plantain	4%
• Rocket	4%
• Chicory	4%
• Phalaris	3%
• Timothy	3%

	500KG +	100-500KG	0- 100KG
AGRISEA TREATED	\$13.95KG	\$14.95KG	\$15.95KG

This mix is formulated to suit irrigated dairy farms

- Sowing Rate: 25-30kg per hectare.
- Sowing Rate: Existing Pasture 15-20kg per hectare.
- Planting Depth: Ideal - 10mm, Max - 15mm.

Agrisea Dryland Sheep & Beef Free Draining Mix

This Mix Contains

• Tall Fescue	13%
• Grazing Brome	13%
• Small Leaf White Clover	12.25%
• Tri-Blend Red Clover	10%
• Lucerne	10%
• Cocksfoot	7%
• Timothy	7%
• Prairie Grass	7%
• Meadow Fescue	7%
• Matrix	7%
• Phalaris	3%
• Chicory	1.5%
• Sheeps Burnett	1.5%
• Plantain	0.75%

	500KG +	100-500KG	0- 100KG
AGRISEA TREATED	\$15.25KG	\$15.95KG	\$16.75KG

This mix will enhance dryland sheep and beef farming options. The tolerance to summer dry comes from the added deep rooted species.

- Sowing Rate: 25-30kg per hectare.
- Sowing Rate: Existing Pasture 15-20kg per hectare.
- Planting Depth: Ideal - 10mm, Max - 15mm.

Agrisea Summer Annual Mix

This Mix Contains			
• Linseed			11%
• Oats			10%
• Faba Beans			10%
• Rye Corn			10%
• Vetch			6%
• Annual Ryegrass			6%
• Sunflower			6%
• Peas			6%
• Prairie Grass			6%
• Buckwheat			4%
• Phacelia			4%
• Lupins			4%
• Japanese Millet			4%
• Persian Clover			4%
• Balansa Clover			4%
• Radish			4%
• Rape			1%

	500KG +	100-500KG	0- 100KG
UNTREATED	\$5.95KG	\$6.25KG	\$6.95KG
AGRISEA TREATED	\$7.45KG	\$7.75KG	\$8.45KG

This mix is curated to provide top-notch summer feed as well as building soil health. This is a great option to plant before a perennial seed mix in the Autumn.

- Sowing Rate: 30-35kg per hectare.
- Planting Depth: Ideal - 15mm, Max - 20mm.

Agrisea Winter Annual Mix

This Mix Contains			
• Rye Corn			17%
• Oats			17%
• Faba Beans			10%
• Annual Ryegrass			10%
• Vetch			7%
• Peas			7%
• Linseed			7%
• Prairie Grass			7%
• Rape			3%
• Radish			3%
• Balansa Clover			3%
• Persian Clover			3%
• Lupins			3%
• Phacelia			3%

	500KG +	100-500KG	0-100KG
UNTREATED	\$4.95KG	\$5.25KG	\$5.95KG
AGRISEA TREATED	\$6.45KG	\$6.75KG	\$7.45KG

This mix is full of winter active species which helps create a diverse range of feed during the winter.

- Sowing Rate: 30-35kg per hectare.
- Planting Depth: Ideal - 15mm, Max - 20mm.

Plant Summary

Diploid Italian Ryegrass:

Rocket

Grasses:

Prairie Grass

Grazing Brome

Cocksfoot

Tall Fescue

Meadow Fescue

Timothy

Phalaris

Japanese Millet

Legumes:

Tri-Blend White Clover

Tri-Blend Red Clover

Persian Clover

Balansa Clover

Sub Clover

Medics

Lucerne

Diploid Perennial Ryegrass:

Saxon

Matrix

Brassicas:

Rape

Radish

Cereals:

Linseed

Phacelia

Oats

Faba Beans

Rye Corn

Vetch

Peas

Lupins

Sun Flowers

Herbs:

Chicory

Plantain

Sheeps Burnett

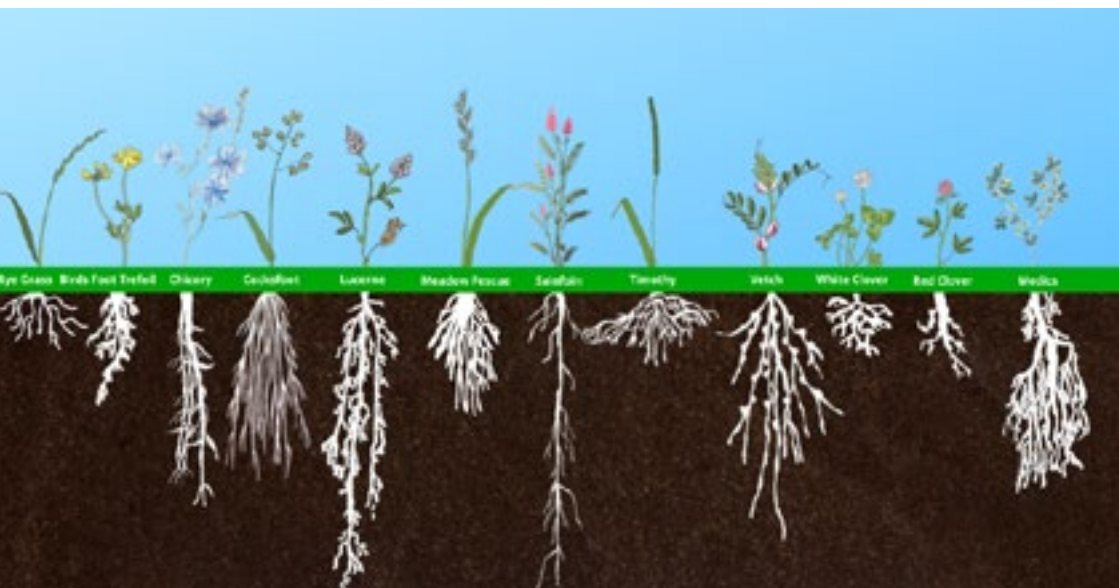

HELPFUL TIPS TO KNOW WHEN SOWING WESCO SEED:

1. **Know your soil pH and nutrient status:** 6 months before sowing.
2. **Planting depth** is critical to germination and plant survival.
 - No more than 15cm deep.
 - Small seeds (clover, plantain etc.) max 10mm deep.
3. **Check soil condition.**
 - Dry soil, plant seeds slightly deeper; closer to soil moisture.
 - Damp soil plant seeds closer to the surface.
 - Ensure the seed bed is firm to retain moisture.
4. **Application method** is suited to the seed mix and field environment.
5. **Use a crop diary to record**
 - Paddocks & crops used
 - Planting dates & rates
 - Soil moisture, temperature
 - Weather
 - Application type & settings
 - Harvesting/grazing dates.

Ordering, Delivery & Freight

Placing an order with Wesco Seeds is as easy as:

- A phone call - 0800 643 643
- Email - sales@wesco.co.nz

You can also order through your local Farm Source Store

View our product range on:

- Our website - www.wesco.co.nz

- Your Wesco Seed order is normally dispatched the morning after. These lead-times can change during busier seasons. Please allow 2-5 working days for delivery.
- Virtually all Wesco Seed is supplied in 25KG bags. Bulk 500kg bags are also an option.
- Delivery is free on all orders 50KG and over. Orders 50KG and under will incur a \$15+gst freight and handling fee.
- All pallets have a plastic cover and are shrink wrapped to protect the seed in transit.
- We deliver directly to your farm. Or to your local Farm Source Store for orders placed through Farm Source.
- The seed mixes provided are a guideline. If you would like to make changes to any of the mixes, call your local rep.
